For Immediate Release

Surepoint Emergency Centers Help Certify 900 People in CPR for FREE

Texas - Surepoint Emergency Centers, located in Azle, Denton, Corpus Christi, Fort Worth, Pantego, Stephenville and Weatherford, host monthly **FREE CPR Courses** and in 2019 alone, certified 900 people.

In conjunction with instructors from Republic EMS, Surepoint offers FREE Training in adult, child, and infant CPR, as well as training for AED and choking, for people ages 8 years old and up. The courses are held either on a week night or Saturday morning and usually last two hours. Snacks and a goodie bag are provided. Once the class is completed, the attendee gets a certification card which is good for two years.

“Teaching people to help save lives is our number one goal”, said Sasha Sessums, Republic EMS Regional VP of Business Development and CPR Certified instructor. *“Partnering with Surepoint Emergency Centers allows us both to connect with the community to help educate and train them to possibly save a life through CPR. We started offering these FREE classes in 2018 and with Surepoint’s help, have certified 900 people so far! They have been a wonderful partner by providing the training space and assistance.*

Starting in February 2020, Surepoint and Republic will also offer **FREE Heartsaver First Aid** classes for ages 8 and older. Each class will cover:

- First Aid Basics: Duties and key steps
- Medical, Injury and Environmental Emergencies
- Preventing Illness and Injury; Legal Questions

The certification is good for two years and at the end of each class, attendees will have a chance to win a complete First Aid Kit to take home.

For more information, or to register for a FREE CPR and/or First Aid class, go to <https://www.surepointer.com/classes-and-events/>

Eight Surepoint Emergency Center locations in the DFW area and South Texas, offer modern emergency services, 24/7, with minimal wait time. Our expert medical staff provides proper medical diagnosis for health issues such as minor injuries and fever to major cardiac issues and trauma situations. The facilities have multiple patient rooms, an in-house lab, X-ray and CT scanner. We offer efficient and effective emergency care with a personal touch.
