Texas

Surepoint Emergency Centers Source Personal Protective Equipment for Staff

Texas- Surepoint Emergency Centers, located in Azle, Denton, Corpus Christi/Padre Island, Fort Worth, Pantego, Stephenville, and Weatherford, are 24/7 emergency rooms, providing emergency medical care and treatment. We have an experienced team of doctors, nurses, radiology technologists and support staff.

We have always been committed to providing a healthy, bright and clean environment where our patients can be treated while feeling assured and secure. We will continue to ensure that we take sufficient measures to mitigate further any possible risks. The health and well-being of our patients remain our number one concern, as we tackle the COVID-19

As a premier medical services provider, we understand the impact of the COVID-19 pandemic. We place the utmost importance on the health and safety of our staff who are at constant risk while treating patients. To ensure the health of our staff is protected, Surepoint has collaborated with the [Texas Association of Freestanding Emergency Centers](#) to source PPE equipment for our staff across all our emergency centers.

This initiative has been taken up, keeping in mind the need to curb the spread of infection and protect both patients and healthcare staff. All of our eight locations are able to provide the necessary number of PPE kits to doctors, nurses, and staff to assist them in providing the best possible medical care to patients.

The Texas Association of Freestanding Emergency Centers (TAFEC) is dedicated to raising public awareness of freestanding emergency centers as an option that is always available and providing high-quality emergency medical care.
